

Certificate and test record register

All records

CERTIFICATES ISSUED
11
\$1,890.00 invoiced

DUE WITHIN 60 DAYS
2
9 of 11 carry an expiry date

EXPIRED
1
retest or renewal overdue

FAILURE RATE
20.0%
2 fail of 10 with a pass/fail result

FOLLOW-UPS OUTSTANDING
2
remedial work not yet closed out

COPIES NOT ISSUED
2
clients still waiting for their certificate

11 of 11 record(s) included. All records. Amounts in USD.

Advisory-only records are shown here but are excluded from the failure rate, because no pass/fail judgement was given. Advisory-only records are shown here but are excluded from the failure rate, because no pass/fail judgement was given.

A steady issuing rate with a growing expiry pipeline is what a healthy retest business looks like. A steady issuing rate with a growing expiry pipeline is what a healthy retest business looks like.

Counts certificates whose expiry or next-test date falls in each of the next 12 calendar months, including the current month. Already-expired certificates are not shown here — they are in the expiry table below. Counts certificates whose expiry or next-test date falls in each of the next 12 calendar months, including the current month. Already-expired certificates are not shown here — they are in the expiry table below.

Grouped on the type text exactly as you typed it — keep the wording consistent ("Gas safety record", not three spellings of it) and this chart stays honest. Notes

Sample register — replace every entry with your own before relying on it or sending it to anyone.

This is an internal register of documents you have issued. It does not confer competence on anybody, does not certify anything by itself, and does not replace membership of, or notification to, any statutory certification or registration scheme. Which certificates a business may issue, who may sign them, and how long records must be kept differ by country and by trade — establish what applies to you. Expiry figures assume the dates entered are correct.
