10 of 10 record(s) included. All records. Amounts in USD.

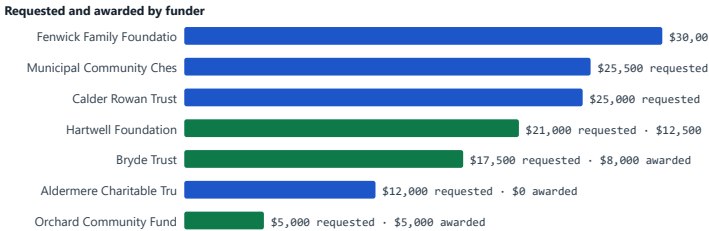

Every application in the current filter, by its current status. A healthy pipeline has entries at every stage, not only decisions. Every application in the current filter, by its current status. A healthy pipeline has entries at every stage, not only decisions.

Grouped by decision month (the submission deadline month where no decision date is recorded). Awarded segments use the amount actually awarded; rejected segments use the amount that was requested, because nothing was awarded. Grouped by decision month (the submission deadline month where no decision date is recorded). Awarded segments use the amount actually awarded; rejected segments use the amount that was requested, because nothing was awarded.

Count of applications by the month they were identified, with the total value requested that month. Gaps usually mean nobody was looking, not that nothing was available. Count of applications by the month they were identified, with the total value requested that month. Gaps usually mean nobody was looking, not that nothing was available.

Bar length is the total requested from each funder across all applications; the label alongside shows how much of it was actually awarded. Top ten funders by value requested. Bar length is the total requested from each funder across all applications; the label alongside shows how much of it was actually awarded. Top ten funders by value requested.

Notes

Sample register — replace every entry with your own applications before relying on the figures or circulating this report.

This is an internal record and a calculation aid. Every figure is calculated only from what has been entered: the success rate counts decided applications, awarded totals count only applications marked awarded or closed, and deadline warnings depend on the dates entered being kept up to date. It does not submit applications, file reports or communicate with any funder, and it is not financial or legal advice. Check restricted-fund treatment with whoever prepares your accounts.
